

## How we can help you in Switzerland?

For many recruiters, Switzerland has been off-limits due to the complexity of work regulations and the need to hold a labour leasing licence.

ITECS holds Swiss cantonal and federal labour leasing licenses and is thus fully authorised to place contractors with companies in Switzerland.

By utilising our licenses, and thus satisfying your client's requirements, you will be able to explore new opportunities in the country.

All foreign contractors going to work in Switzerland need to obtain a work permit. This even applies to EU nationals, but only if they are in the country for more than 3 months. We know how daunting it can be to deal with immigration procedures in an unfamiliar country (or even in a familiar one!), so ITECS take care of the leg work for you.

With attractive pay rates, quality lifestyle and excellent retention rates, Switzerland is a good place to live and work.
